

NFEC Industrial Premises Dialogue Session with Fire Safety Managers and Safety Officers

23 February 2017

The Annual NFEC Dialogue Session with Fire Safety Managers and Safety Officers for industrial premises was held at the SCDF Headquarters on 23 February 2017. About 30 Fire Safety Managers and Safety Officers from various industrial premises attended the session.

The panel comprised Mr Rowan Tan (Chairman, NFEC Industrial Premises Committee) and CPT Kang Kim Long and SWO Bashir Md Yusof from the SCDF Central Enforcement Department. Participants were provided an update on the 2016 Fire Statistics which included fire safety non-compliances and SCDF enforcement actions.

As part of the dialogue session, the panel also addressed FSM, Safety Officers and Company Emergency Response Team (CERT) related issues. The dialogue was a fruitful session where the participants took the opportunity to raise questions concerning their industry and get a better understanding on the SCDF fire safety and enforcement actions for industrial premises.
